For Research Use Only

FcZero-rAb™ APC Anti-Human VEGFR2/CD309 Rabbit Recombinant Antibody

Purification Method:

Catalog Number: APC-FcA98009

Basic Information

Catalog Number: GenBank Accession Number: APC-FcA98009 NM_002253

 APC-FcA98009
 NM_002253
 Protein A purification

 Size:
 GeneID (NCBI):
 CloneNo.:

 100tests, 5 ul/test
 3791
 230238B11

Source: Full Name: Excitation/Emission maxima

Rabbit kinase insert domain receptor (a type wavelengths:

Isotype: III receptor tyrosine kinase) 650 nm / 660 nm

IgG Calculated MW:

152kd

Applications

Tested Applications:

FC

Species Specificity:

human

Background Information

VEGFR2, also named as CD309, KDR and FLK1, is a receptor for VEGF or VEGFC. VEGFR2 which belongs to the protein kinase superfamily, has a tyrosine-protein kinase activity. The VEGF-kinase ligand/receptor signaling system plays a key role in vascular development and regulation of vascular permeability. In case of HIV-1 infection, the interaction with extracellular viral Tat protein seems to enhance angiogenesis in Kaposi's sarcoma lesions. VEGFR2 functions as the main mediator of VEGF-induced endothelial proliferation, survival, migration, tubular morphogenesis and sprouting. Mutations of this gene are implicated in infantile capillary hemangiomas.

Storage

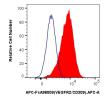

Storage:

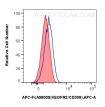

Store at 2-8°C. Avoid exposure to light. Stable for one year after shipment.

Storage Buffer:

PBS with 0.09% sodium azide and 0.5% BSA.

Selected Validation Data

1x10^6 HUVEC cells (left) or HeLa cells (right) were surface stained with 5 ul APC Anti-Human VEGFR2/CD309 Rabbit Recombinant Antibody (APC-FcA98009, Clone:230238B11) (red) or APC Rabbit 1gG Isotype Control Recombinant Antibody (APC-FcA98136, Clone: 240953C9) (blue). Cells were not fixed.
