

FOR IN VITRO RESEARCH USE ONLY.
NOT FOR USE IN HUMANS OR ANIMALS.

Recombinant human SPOPL protein

Basic Information

Catalog Number:
Ag11974

Size:
50 µg

Form:
Available lyophilized

Species:
human

Expression Source:
e. coli-derived, PET28a, with N-terminal 6^oHis.

Biological Activity:
Not tested

Endotoxin Level:
Please contact the lab for more information

Peptide Sequence:

(1-392aa encoded by BC071613)

Reconstitution and Storage

Reconstitution:
Reconstitute at 0.25 µg/ µl in 200 µl sterile water for short-term storage.
After reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more details).
If a different concentration is needed for your purposes please adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to the volume used).
Note: Centrifuge vial before opening. When reconstituting, gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution.

Shipping:
The product is shipped with ice packs. Upon receipt, store it immediately at -20°C to -80°C.

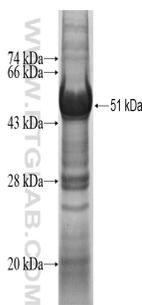

Formulation

The protein was expressed as 6xHis-tagged fusion protein by *E. coli* and purified by Ni-sepharose. The purified protein was resolved in PBS (58mM Na₂HPO₄, 17mM NaH₂PO₄, 68mM NaCl, pH7.4) added with 15% glycerol. The elution buffer contain 300mM imidazole.

Stability and Storage

Aliquot and store at -20°C to -80°C for up to 6 months. Avoid freeze thaw cycles.
