FOR IN VITRO RESEARCH USE ONLY. NOT FOR USE IN HUMANS OR ANIMALS.

FZD2 Fusion Protein

19055 e: μg m: bilable lyophilized	CEHFPRHGAEQICVGQNHSEDGAPALLTTAPPPGLQ PGAGGTPGGPGGGGGAPPRYATLEHPFHCPRVLKVPSY LSYKFLG (138-217 aa encoded by BC113402)
μg m: ilable lyophilized	LSYKFLG
m: ilable lyophilized	
ilable lyophilized	(130-217 88 encoded by DC113402)
cies:	
Species: human	ET28a, with N-terminal 6*His. ty:
ression Source: <i>pli.</i> -derived, PET28a, with N-terminal 6*His.	
logical Activity: tested	
lotoxin Level: ase contact the lab for more information	
idated Application: cking peptide	
onstitution: onstitute at 0.25 µg/ µ l in 200 µ l sterile water for short- n storage. er reconstitution with sterile water, if glycerol has no effect subsequent experiments, it is recommended to add an lal volume of glycerol for long-term storage (see Stability I Storage for more details). different concentration is needed for your purposes please ust the reconstitution volume as required (please note: the concentration of the final solution will vary according to volume used). e: Centrifuge vial before opening. When reconstituting, tty pipet and wash down the sides of the vial to ensure full overy of the protein into solution.	Shipping: The product is shipped at ambient temperature. Upon receipt, store it immediately at the recommended temperature (see below).
re for up to 12 months at -20°C to -80°C as lyophilized vder.	
rt Term Storage:	
onstitution with sterile water and addition of an equal	
ume of glycerol. Avoid repeat freeze-thaw cycles.	
	Storage for more details). different concentration is needed for your purposes please ust the reconstitution volume as required (please note: the concentration of the final solution will vary according to volume used). e: Centrifuge vial before opening. When reconstituting, tty pipet and wash down the sides of the vial to ensure full overy of the protein into solution. re for up to 12 months at -20°C to -80°C as lyophilized vder. rt Term Storage: re at 2-8°C for (1-2 weeks). g Term Storage: puot and store at -20°C to -80°C for up to 3 months, ponstitution with sterile water and addition of an equal

Selected Validation Data
