# Reconstitution and Storage

**Basic Information** 

Reconstitution:

Catalog Number: Ag4625

Available lyophilized

**Expression Source:** 

Biological Activity:

Endotoxin Level:

Validated Application: Blocking peptide

e coli.-derived, PGEX-4T, with N-terminal GST.

Please contact the lab for more information

Form:

Species:

human

Not tested

Reconstitute at 0.25  $\mu g/$   $\mu$  l in 200  $\;\mu$  l sterile water for short-term storage.

After reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more details).

If a different concentration is needed for your purposes please adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to the volume used).

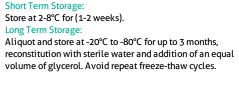

Note: Centrifuge vial before opening. When reconstituting, gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution.

Store for up to 12 months at -20°C to -80°C as lyophilized powder.

### Storage of Reconstituted Protein

**Stability and Storage**
