| | | Biological Activity: Not tested |
| | | Endotoxin Level: |
| Please contact the lab for more information | | |
| Reconstitution: Reconstitute at 0.25 µg/ μ l in 200 μ l sterile water for short- term storage. | Shipping: The product is shipped at ambient temperature. Upon receipt, store it immediately at the | |
| on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more details). If a different concentration is needed for your purposes please | recommended temperature (see below). | |
| ion concentration of the final solution will vary according to the volume used). | | |
| gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution. | | |
| 85%, by SDS-PAGE with Coomassie Brilliant Blue staining. | | |
| The purified protein was Lyophilized from sterile PBS (58mM Na2H trehalose and 5 % mannitol are added as protectant before lyophi imidazole. | • | |
| Store for up to 12 months at -20°C to -80°C as lyophilized powder. | | |
| Short Term Storage: Store at 2-8°C for (1-2 weeks). Long Term Storage: Aliquot and store at -20°C to -80°C for up to 3 months, buffer containing 50% glycerol is recommended for reconstitution | | |
| Avoid repeat freeze-thaw cycles. | | |

| | Ag6184 Form: Available lyophilized Species: Juman Expression Source: e cal:-derived, PET28a, with N-terminal 6*His. Biological Activity: Not tested Endotoxin Level: Reconstitution Reconstitution to 0.25 µg/ µ l in 200 µ l sterile water for short-term storage. Affer reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more details). If a different concentration is needed for your purposes please adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to the volume used). Note: Centrifuge vial before opening. When reconstituting, gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution. B5%, by SDS-PACE with Coomassie Brilliant Blue staining. The purified protein was Lyophilized from sterile PBS (S8mM Na2) trehalose and 5 % mannitol are added as protectant before lyophilimidazole. Store at 2.8°C for (1-2 weeks). Dig Tem Storage: Miquot and store at -20°C to -80°C for up to 3 months, buffer containing 50% glycerol is recommended for reconstitution. Avoid repeat freeze-thaw cycles. | |
