## FOR IN VITRO RESEARCH USE ONLY. NOT FOR USE IN HUMANS OR ANIMALS.

## Recombinant human MYEF2 protein

| Basic Information                   | Catalog Number:  | Peptide Sequence:   |
|-------------------------------------|--|---|
|                                     | Ag8995   | MDGPGFGGMNRIGGGIGFGGLEAMNSMGGFGGVGR<br>MGELYRGAMTSSMERDFGRGDIGINRGFGDSFGRLGG<br>GMGSMNSVTGGMGMGLDRMSSSFDRMGPGIGAILER<br>SIDMDRGFLSGPMGSGMRERIGSKGNQIFVRNLPFDL<br>TWQKLKEKFSQCGHVMFAEIKMENGKSKGCGTVRFD<br>SPESAEKACRIMNGIKISGREIDVRLDRNA<br>(1-212 aa encoded by BC014533) |
|                                     | Size:<br>50 µg   |   |
|                                     | Form:  |   |
|                                     | Available lyophilized  |   |
|                                     | Species:<br>human  |   |
|                                     | Expression Source:<br>e coli-derived, PET28a, with N-terminal 6*His.   |   |
|                                     | Biological Activity:<br>Not tested   |   |
|                                     | Endotoxin Level:<br>Please contact the lab for more information  |   |
| Reconstitution                      | Reconstitution:<br>Reconstitute at 0.25 µg/ $\mu$ l in 200 $\mu$ l sterile water for short-  | Shipping:<br>The product is shipped at ambient temperature.<br>Upon receipt, store it immediately at the<br>recommended temperature (see below).  |
| and Storage                         | After reconstitution with sterile water, if glycerol has no effect<br>on subsequent experiments, it is recommended to add an<br>equal volume of glycerol for long-term storage (see Stability<br>and Storage for more details).      |   |
|                                     | If a different concentration is needed for your purposes please<br>adjust the reconstitution volume as required (please note: the<br>ion concentration of the final solution will vary according to<br>the volume used).             |   |
|                                     | Note: Centrifuge vial before opening. When reconstituting, gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution.  |   |
| Purity                              | 85%, by SDS-PAGE with Coomassie Brilliant Blue staining.   |   |
| Formulation                         | The purified protein was Lyophilized from sterile PBS (58mM Na2HPO4,17mM NaH2PO4, 68mM NaCl, pH7.4). 5 %<br>trehalose and 5 % mannitol are added as protectant before lyophilization. The elution buffer contain 300mM<br>imidazole. |   |
| Stability and Storage               | Store for up to 12 months at -20°C to -80°C as lyophilized powder.   |   |
| Storage of<br>Reconstituted Protein | Short Term Storage:<br>Store at 2-8°C for (1-2 weeks).<br>Long Term Storage:<br>Aliquot and store at -20°C to -80°C for up to 3 months, buffer<br>containing 50% glycerol is recommended for reconstitution.                         |   |
|                                     | Avoid repeat freeze-thaw cycles.   |   |
| Selected Validation Data            |  |   |
|                                     | 74 kBa→  |   |
|                                     | 43 kDa→  |   |
|                                     | , P  |   |
|                                     | 28 kDa→ ← 26 kDa   |   |
|                                     |  |   |
