

For Research Use Only

Biotin Anti-Mouse CD19 (1D3) Rat IgG2a Recombinant Antibody

Catalog Number: Biotin-65661

Basic Information

Catalog Number:

Biotin-65661

Concentration:

100ug, 500 ug/ml

Source:

Rat

Isotype:

IgG2a

GenBank Accession Number:

BC156767

GeneID (NCBI):

12478

UNIPROT ID:

P25918

Full Name:

CD19 antigen

Purification Method:

Protein A purification

CloneNo.:

1D3

Recommended Dilutions:

FC: 0.25 ug per 10⁶ cells in a 100 µl suspension

Excitation/Emission maxima wavelengths:

-

Applications

Tested Applications:

FC

Species Specificity:

mouse

Positive Controls:

FC : mouse splenocytes,

Background Information

CD19 is a 95 kDa type I transmembrane glycoprotein belonging to the immunoglobulin superfamily (PMID: 2472450). It is expressed by B cells and follicular dendritic cells. CD19 is up-regulated at the step of B-lineage commitment during the differentiation of the hematopoietic stem cell, it remains on during subsequent stages of differentiation until finally down-regulated during terminal differentiation into plasma cells (PMID: 8528044). CD19 is involved in B cell development, activation and differentiation. It is the dominant component for the signaling complex on B cells that includes CD21 (CR2), CD81 (TAPA-1) and CD225 and acts as a critical co-receptor for BCR signal transduction (PMID: 23210908).

Storage

Storage:

Store at 2-8°C. Avoid exposure to light. Stable for one year after shipment.

Storage Buffer:

PBS with 0.09% sodium azide, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

1x10⁶ mouse splenocytes were surface stained with 0.25 ug Biotin Anti-Mouse CD19 (1D3) Rat IgG2a RecAb (Biotin-65661, Clone:1D3) and Streptavidin-PE Conjugate (PE-PF00030) or unstained. Cells were then stained with APC Anti-Mouse CD3 (17A2) (APC-65077, Clone: 17A2). Cells were not fixed.

1x10⁶ mouse splenocytes were surface stained with 0.25 ug Biotin Anti-Mouse CD19 (1D3) Rat IgG2a RecAb (Biotin-65661, Clone:1D3) (red) or unstained (blue), and Streptavidin-PE Conjugate (PE-PF00030). Cells were not fixed.
