For Research Use Only

CoraLite® Plus 488-conjugated CD155/PVR Recombinant antibody

Catalog Number: CL488-84138

Basic Information

Catalog Number: GenBank Accession Number: CL488-84138 BC015542

Concentration: GeneID (NCBI): 1000 μg/ml 5817

UNIPROT ID: Source: Rabbit P15151 IF/ICC 1:50-1:500

Full Name: Isotype: poliovirus receptor wavelengths:

Calculated MW: Immunogen Catalog Number:

45 kDa

human

Purification Method: Protein A purification

CloneNo.: 241405B2

Recommended Dilutions:

Excitation/Emission maxima

493 nm / 522 nm

Applications

Tested Applications:

IF/ICC

Species Specificity:

Positive Controls:

IF/ICC: A549 cells,

Background Information

CD155, also known as PVR, is a type I transmembrane glycoprotein in the immunoglobulin superfamily. It contains the immunoglobulin superfamily is a containst the immunoglobulin superfamily of the containst the immunoglobulin superfamily. It contains the immunoglobulin superfamily is a contained by the contained of the contained by the containthree extracellular immunoglobulin-like domains, D1-D3, of which D1 is recognized by the virus. Mature human CD155 consists of a 323 amino acid extracellular domain with one N-terminal V-type and two C2-type Ig-like domains, a 24 amino acid transmembrane segment, and a 50 amino acid cytoplasmic tail. CD155 is thought to play a role in adhesion by interaction with the ECM component vitronectin as well as a role in NK killing of tumor cells. CD155 binds to two receptors of NK cells, CD96 and CD226, and accumulates at cell-cell contact sites, leading to the formation of mature immune synapses between NK cells and target cells. CD155 serves as the entry receptor for poliovirus and thereby mediates human susceptibility to poliovirus infection.

Storage

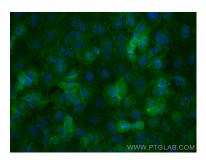

Store at -20°C. Avoid exposure to light. Stable for one year after shipment.

Storage Buffer

PBS with 50% glycerol, 0.05% Proclin300, 0.5% BSA, pH7.3

Aliquoting is unnecessary for -20°C storage

Selected Validation Data

Immunofluorescent analysis of (4% PFA) fixed A549 cells using Coralite® Plus 488 CD155/PVR antibody (CL488-84138, Clone: 241405B2) at dilution of 1:200.
