For Research Use Only

CoraLite®594 Anti-Human CD244 Rabbit Recombinant Antibody

Catalog Number: CL594-98133

Basic Information

Catalog Number: CL594-98133 Concentration:

100tests, 5 ul/test Source:

Rabbit Isotype:

IgG

GenBank Accession Number:

BC053985
GeneID (NCBI):
51744
UNIPROT ID:
Q9BZW8
Full Name:

CD244 molecule, natural killer cell receptor 2B4

Calculated MW: 365 aa, 41 kDa

Purification Method:

Protein A purification CloneNo.:

Excitation/Emission maxima wavelengths:

588 nm / 604 nm

241260G10

Applications

Tested Applications:

FC

Species Specificity:

human

Background Information

CD244, also known as SLAMF4 or 2B4, is a type I transmembrane glycoprotein belonging to the signaling lymphocyte activation molecule (SLAM) family. It consists of an extracellular segment with two immunoglobulin (lg)-like domains, a transmembrane region, and a cytoplasmic domain containing tyrosine-based motifs (PMID: 9841922; 30546369). CD244 is present on natural killer (NK) cells, γ δ T cells, a subset of CD8+ T cells, monocytes, basophils, dendritic cells, and myeloid-derived suppressor cells (MDSCs) (PMID: 30546369). It binds to CD48 with high affinity and transmits stimulatory or inhibitory signals that regulate immune function (PMID: 9841922; 185235281).

Storage

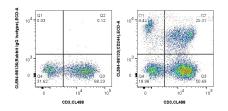

Storage:

Store at 2-8°C. Avoid exposure to light. Stable for one year after shipment.

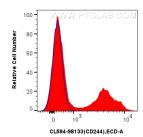

Storage Buffer

PBS with 0.09% sodium azide and 0.5% BSA.

Selected Validation Data

1x10^6 human PBMCs were surface stained with CoraLite® Plus 488 Anti-Human CD3, and 5 ul CoraLite® 594 Anti-Human CD244 Rabbit RecAb (CL594-98133, Clone: 241260G10) or CoraLite® 594 Rabbit IgG Isotype Control RecAb (CL594-98136, Clone: 240953C9). Cells were incubated with FC Receptor Block prior to staining. Cells were not fixed.

1x10^6 human PBMCs were surface stained with 5 ul CoraLite®594 Anti-Human CD244 Rabbit RecAb (CL594-98133, Clone:241260G10) (red), or CoraLite®594 Rabbit IgG Isotype Control RecAb (CL594-98136, Clone: 240953C9) (blue). Cells were incubated with FC Receptor Block prior to staining. Cells were not fixed.
