

For Research Use Only

CoraLite®594 Anti-Human DDR1/CD167a Rabbit Recombinant Antibody

Catalog Number: CL594-98200

Basic Information

Catalog Number: CL594-98200	GenBank Accession Number: NM_001297654.2	Purification Method: Protein A purification
Concentration: 100tests, 5 ul/test	GeneID (NCBI): 780	CloneNo.: 241796D6
Source: Rabbit	UNIPROT ID: Q08345-1	Excitation/Emission maxima wavelengths: 588 nm / 604 nm
Isotype: IgG	Full Name: discoidin domain receptor tyrosine kinase 1	
Immunogen Catalog Number: EG1675	Calculated MW: 101kDa	

Applications

Tested Applications:
FC

Species Specificity:
human

Background Information

DDR1, or CD167a, is a member of the receptor tyrosine kinase (RTK) family, which plays a significant role in various cellular processes including cell proliferation, adhesion, migration, and extracellular matrix (ECM) remodeling. DDR1 is known for its unique discoidin domain that allows it to bind specifically to certain collagens, initiating downstream signaling pathways that can lead to cell transformation and tumor progression. Abnormal activation of DDR1 is closely associated with the development of various solid tumors, and it has been shown that DDR1 can prevent immune cells from infiltrating triple-negative breast cancer (TNBC) and eliminate tumor cells.

Storage

Storage:
Store at 2-8°C. Avoid exposure to light. Stable for one year after shipment.

Storage Buffer:
PBS with 0.09% sodium azide and 0.5% BSA, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

1x10⁶ MCF-7 cells (left) or HeLa cells (right) were surface stained with 5 μ l CoraLite®594 Anti-Human DDR1/CD167a Rabbit RecAb (CL594-98200, Clone: 241796D6) (red) or CoraLite®594 Rabbit IgG Isotype Control RecAb (CL594-98136, Clone: 240953C9) (blue). Cells were not fixed.
