For Research Use Only

CoraLite® Plus 647-conjugated NQO1 Polyclonal antibody

Catalog Number:CL647-11451

Featured Product

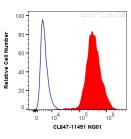

Size: 1000 µ g/ml Source: Rabbit Isotype: IgG	GeneID (NCBI): 1728 UNIPROT ID: P15559	Excitation/Emission maxima wavelengths: 654 nm / 674 nm
Rabbit Isotype:		654 nm / 674 nm
.	Full Name: NAD(P)H dehydrogenase, quinone 1 Calculated MW: 274 aa, 31 kDa Observed MW: 31 kDa	
Immunogen Catalog Number: AG2009		
Tested Applications: FC (Intra)		
Species Specificity: human		
NQO1, also named as DIA4, NMOR1, DTD and QR1, belongs to the NAD(P)H dehydrogenase (quinone) family. This enzyme apparently serves as a quinone reductase in connection with conjugation reactions of hydroquinons involved in detoxification pathways as well as in biosynthetic processes such as the vitamin K-dependent gamma- carboxylation of glutamate residues in prothrombin synthesis. It is known to be involved in benzene metabolism. I human studies of ozone exposure, polymorphisms in oxidative stress genes (NQO1, GSTM1, GSTP1) modify respiratory symptoms, lung function, biomarkers and risk of asthma. (PMID:18511640; 18848868) This antibody recognizes all the three isoforms (26-27 kDa and 31 kDa) of NQO1 and the homo-dimer form (66-70 kDa) of NQO1.		
Storage Buffer:		nt.
	Tested Applications: FC (Intra) Species Specificity: human NQO 1, also named as DIA4, NMO enzyme apparently serves as a qu involved in detoxification pathwa carboxylation of glutamate residu human studies of ozone exposure respiratory symptoms, lung functi recognizes all the three isoforms i Storage: Store at -20°C. Avoid exposure to Storage Buffer: PBS with 50% Glycerol, 0.05% Pro-	Observed MW: 31 kDa Tested Applications: FC (Intra) Species Specificity: human NQO1, also named as DIA4, NMOR1, DTD and QR1, belongs to the NAD(I enzyme apparently serves as a quinone reductase in connection with co involved in detoxification pathways as well as in biosynthetic processe carboxylation of glutamate residues in prothrombin synthesis. It is know human studies of ozone exposure, polymorphisms in oxidative stress ger respiratory symptoms, lung function, biomarkers and risk of asthma. (PM recognizes all the three isoforms (26-27 kDa and 31 kDa) of NQO1 and the Storage: Store at -20°C. Avoid exposure to light. Stable for one year after shipme

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

1X10^6 HepG2 cells were intracellularly stained with 0.2 ug Coralite® Plus 647 Anti-Human NQ01 (CL647-11451) (red), or 0.2 ug isotype control (blue). Cells were fixed with 4% PFA and permeabilized with Flow Cytometry Perm Buffer (PF00011-C).
