Storage and Shipping

Storage:

It is recommended that the protein be aliquoted for optimal storage. Avoid repeated freeze-thaw cycles.

- Until expiry date, -20°C to -80°C as lyophilized proteins.
- 3 months, -20°C to -80°C under sterile conditions after reconstitution.

Shipping:

The product is shipped at ambient temperature. Upon receipt, store it immediately at the recommended temperature.

Reconstitution

Briefly centrifuge the tube before opening. Reconstitute at 0.1-0.5 mg/mL in sterile water.

Background

CCL6 is a selective CCR1 ligand, and although it does not exist in humans, it is considered to have the human orthologs CCL15 and CCL23. Further investigation is needed to determine the role of CCL6 after PNS and CNS injury, and it would also be worthwhile to investigate the role of CCL15 and CCL23 in patients.
